Persons taking the 8:20 car out of Dakota City in the mornings will observe a very interesting tableau. A very business like young lady boards the car at the Dakota City end of the line and rides to the half-way house. On the way she will dive out into the rear vestibule about every other minute and grab a youngster and find it a seat, until she has a brood of about a dozen by the time she arrives at her getting off place. After she sees they all get off the car safe, they all start for the school house a half mile away rejoicing. This charming young lady is Miss Olive Stinson, who is teaching the school east of the half-way house. Parents who have children under her wing, certainly ought to congratulate themselves in having such efficient service as this young lady gives.

Old "Si" is probably ignorant of the fact that the champion corn raiser of Nebraska, resides in the "jungle of Blyburg," as he sees fit to term it, and his name is Ralph Cox. According to Geo. W. Leamer, attorney for the local liquor interests, there will be no contest of the village election in this place by the "wets" to determine the result of the tie vote on the license question. There being no evidence of fraud and no showing but what the count was accurate in every way, gave them no grounds on which to ask for a recount.

### M. E. Church Notes.

Services on Sunday as follows: Sunday school at 10 a. m. Epworth League at 7 p. m. Preaching at 11 a. m. and 8 p. m. The special meetings are being continued this week. The Rev. William Kilburn will preach each evening at 8 p. m.—except Saturday—and on Sunday at 11 a. m. and 8 p. m. A very earnest invitation is given to every individual in the community to attend. Rev. Kilburn is a strong speaker, and deserves a good hearing. A good interest is growing in the services and much has already been accomplished. Let this week be better.

It is the intention of the pastor to cooperate in the "Self Denial Week" movement. Envelopes and other necessary information will be in the hands of the members before Sunday.

Arrangements for next week's meetings are in preparation and it is expected that they will take a novel course. Announcement will be made on Sunday or earlier.

### Lutheran Church Notes

DAKOTA CITY—SALEM

It is two weeks yet till Easter, and how many of us are making any special preparation for the day. Probably some are making special preparations to plant some potatoes Good Friday, you would not think of planting them without preparation, but how different it is with our growing in grace and the knowledge of christian things. We keep down the weeds and spray the bugs in the potato patch and yet so many think they can grow spiritually among the weeds and briars, and that they need no care of the ground. We need to be cared for continually, and that is why we have regular services. That is why we need to be regular in our attendance on these things. But do not mistake regularity for true piety, for you may be regular and not at all pious. Piety consists in submission to God's law and will and out of love for him, not in a strict keeping of the letter of the law.

You can make a good Easter preparation by thinking kindly of the Easter offering. But the offering is not piety. It may grow out of a pious heart, but it may grow out of one that is not pious. Make a thank offering. How many of us made a thank offering. Something above what we have subscribed for on our annual work. Something other than our annual benevolence, because we are thankful to God for his mercies, and benevolence to us. Let us do that. Where your heart is there will be your treasure also; that is the converse of what Jesus said, but it is true.

In spite of the unpleasant night last Friday there was a large turn out for the cantata practice. Most of the folks were there and some came from away across the swamp. That shows how interested some of the boys and girls are. Do you suppose they would have come so far in the slippery night if they had not been interested? Not much. All goes to show the truth of what we have been preaching and writing in these columns that we will be where we want to be if we want to strong enough. That we can get to church if we rather be there than anywhere.

If the folks who filled the ante room of the Salem church and visited had come into the Sunday school room and taken their place in the class we would have had a hundred in the Sunday school. The time is coming when you will do that, too. That has been your custom for a long time, may be always and we do not expect men and women to break off old customs in a day or a week. But you will by degrees.

Listen: You support that church, and it is right that you should get all the good out of it you can, and that it should be of the most value to the community, not only in a social way but more largely in a distinctly christian way. The church is for a social center, especially a rural church, but it is primarily a christian center and that for the teaching and preaching of the Word of God. If you want the church to be the most value to you and your community you must set aside your social visit for a while in the interests of the Word of God. There is a place for you in the Sunday school. If not we will make a place for you. Again all the boosting the preacher can do will be of no good if you are not willing to be boosted. But you are willing to be. Just a gentle stir up, and something will come about if we are all willing. Say "I will go to Sunday school, I am not going to stop in the ante room next Sunday; there is a place for me in the class room. I will be benefited more by the Sunday school than I will by my little visit, and I come here to be benefited and I want all the good I can get." Probably 90% of our lack of interest is caused by our going to the church and Sunday school, aimlessly, without a specific purpose, just out of habit. Away with the habit idea. Set before you a fixed purpose and see what happens in your own life.

Remember the Easter services the \$100 offering.

Communion Palm Sunday at Salem and Easter at Emmanuel.

The Loyal Workers will meet at the parsonage next Saturday.

### GERMAN EVANGELICAL LUTHERAN CHURCH AT SALEM

REV. LUDWIG FRANK, Pastor.

Last Sunday there was a satisfactory number present, but we saw our sister English church had double the number of worshippers as us Germans. Why? Are we worse than those? Not all church going people are hypocrites, but all not church going people are godless, without faith, and without love for our Redeemer, Savior and Lord.

Easter Sunday festival service and holy communion begins at 10 o'clock a. m. We will see how many seats are empty then. Matthew 22, 5-9.

We beg for an Easter collection for our seminary in Lincoln.

### Boy Scout Notes

The boys have been busy selling candy recipe books to start a camp fund. One week's work netted \$7.50.

It is expected that the paper and magazines kindly given to the boys will be hauled to Sioux City next week. If any body has old magazines or catalogs to donate please call up Theodore Frederick.

Last month every member of the old Kangaroo Patrol won the 100% efficiency badge. That is a splendid record. Equally good is the record of the new boys, four of them qualifying for the honor.

F. J. AUCOCK, Scout Master.

### For Sale, Seed Corn

### Farm Notes.

Issued by the University of Nebraska College of Agriculture.

### NEBRASKA'S CLEAN-UP WEEK.

As applied to the farm, hog cholera experts say that Nebraska's clean-up week, beginning April 10, may well be taken advantage of in cleaning up hog houses, pens, and lots. A state inspector says that pigs are rarely born with disease, and never with worms and lice. Such things are acquired by the hogs from their surroundings; hence the need of destroying the disease germs, worms, and lice.

All farms on which hog cholera has existed at any time during the past two years should be cleaned up promptly and thoroughly. The older hogs may have possessed a degree of immunity which enabled them to resist successfully any hog cholera virus of lower power which was missed by previous clean-ups. Pigs from non-immune mothers do not possess this resisting power. The pigs from immune mothers lose their immunity after weaning.

### BAN ON BAD EGGS.

The United States Department of Agriculture gives notice that shipments containing more than 5 per cent of bad eggs will be regarded as violating the food and drugs act and suggest that country shippers candle eggs intended for interstate commerce. Under the federal food and drugs act, eggs, in common with other articles of food, are adulterated if they consist wholly or in part of a filthy, decomposed, or putrid substance.

In the opinion of the department, eggs are adulterated which contain yolk stuck to the shell, black spots, black rots, or mixed rots. Moldy eggs, added eggs, or any other eggs which consist wholly or in part of a filthy, decomposed, or putrid substance came under the same classification.

### FARM MOTOR SHORT COURSE.

A four weeks' course designed to give training in the use, care, and selection of power machinery, including automobiles will be offered at the University Farm, beginning June 5. The course will include shop practice and a general study of gasoline and oil engines, steam tractors, and automobiles. Instruction is open to men 18 years of age and older who have finished the eighth grade. Men of mature age who have not finished the eighth grade will be admitted by special permission. Owing to the nature of the work the number of registrations is limited.

### HALF OF NEBRASKA'S FARMS PAY LESS THAN HIRED MEN'S WAGES.

Farm management surveys of the College of Agriculture have shown that more than half the farms of the state are returning less than hired men's wages if the capital is credited with earning 5 per cent interest. A reorganization of the farm business is all that is necessary on many of these farms to make them profitable. This reorganization does not mean the introduction of wholly new systems of farming. Instead, this recognition would entail, in the majority of cases, merely readjustments in the present systems of management.

### CIRCULAR ON POTATO DISEASES.

A circular concerning potato diseases and their treatment may be had without cost from the Department of Agricultural Botany, College of Agriculture, Lincoln. The diseases mentioned are dry rot, stem rot, wilt, and scab.
